

Lab 1

1. RHEL 9 installed
2. cat prints the whole file to output, more makes the text scroll-able by paging the file through the terminal window size
3. rm removes both files and directories, rmdir only removes directories
4.
 - a. rm: cannot remove folder: is a directory, to overcome use -r flag
 - b. both dir12 and its parent dir1 are removed
 - c. absolute: /home/user/docs/mycv
relative: ./docs/mycv
5. cp /etc/passwd ~/mypasswd
6. mv mypasswd oldpasswd
7.
 - a. cd ~
 - b. cd /home/<username>/
 - c. cd ../../; cd ~
 - d. cd ../../; cd /home/<username>/
8. ls /usr/bin | grep w
9. head -4 /etc/passwd
- 10.tail -7 /etc/passwd
11. man -a passwd
12. man -s 5 passwd
13. man -k passwd
